

INDUSTRIAL GENERATORS

We supply industrial diesel generators sourced from trusted international manufacturing partners and designed for demanding environments. Generators provide reliable power solutions where grid power is limited or unavailable — keeping remote sites, processing plants and construction projects running.

PRODUCT RANGE INCLUDES

Industrial grade generators

Factory sourcing from international manufacturers

Please ensure the word “sourcing” does not appear. Like here under Generators.

Bobo's tip — six details describe a fastener

- | | |
|----------------------|-------------|
| 1. Item or drawing | 4. Grade |
| 2. Diameter x length | 5. Finish |
| 3. Thread or pitch | 6. Quantity |

Send those with your enquiry and we can quote straight away.

VIEW PRODUCTS

The alignment here of this box with Bobo's Tip here is undesirably placed. Please resize the entire box (you can make it smaller to get read of all the extra white space to the right) and then either left-align or centre it, but put some small small spacing between the box and the image above.

Bobo's boot is cut. Please uncute Bobo's boot.

TESTING & LABORATORY CAPABILITY

Laboratory & analytical instrumentation

Pilot plant & flotation test work

Sample preparation, fi
drying

Please remove the Pilot Plant & test work image. Use another image.
